Professional Summary

Full Stack Developer with hands-on experience building and deploying scalable web applications, CRM platforms, and AI-powered solutions. Proficient in developing end-to-end applications using React.js, Node.js, Express.js, MongoDB, and REST APIs. Experienced in building role-based workflows, activity tracking, business process automation, and real-world sales management systems. Strong foundation in Java, Data Structures & Algorithms, OOP, DBMS, and software development principles.

Technical Skills

Languages	Java, JavaScript, Python
Frontend	React.js, HTML5, CSS3, Tailwind CSS, Framer Motion
Backend	Node.js, Express.js, REST APIs
Databases	MongoDB, MySQL
AI & Integrations	Google Gemini API, Firebase, Razorpay
Mobile Development	Capacitor
Developer Tools	Git, GitHub, VS Code, Postman
Core CS	Data Structures & Algorithms, OOP, DBMS

Projects

CRINZA Sales & Activity Management CRM | GitHub | Live

- Engineered a full-stack CRM platform for managing sales, leads, follow-ups, emails, employee activities, and operational workflows across multiple user roles.
- Implemented role-based dashboards for Admins, Salespersons, Telecallers, and Accountants, including lead management, receipt verification, activity monitoring, and daily operations.
- Built field-sales tracking with Start Day/Day End workflows, live location monitoring, and travel-distance calculation, and converted the web application into an Android app using Capacitor.

AI Interview Agent | GitHub | Live

- Developed an AI-powered interview platform that analyzes uploaded resumes and generates personalized interview questions using the Google Gemini API.
- Built voice and text interview workflows with AI-driven response evaluation, personalized feedback, and interview history management.
- Integrated Firebase Authentication and Razorpay payment processing for secure user access and paid interview functionality.

Experience

Full Stack Developer Intern

Jul 2026 – Present

CRINZA Private Limited

- Developing and enhancing a full-stack CRM platform using React.js, Node.js, Express.js, and MongoDB to manage sales, leads, emails, employee activities, and operational workflows.
- Built role-based dashboards and workflows for Admins, Salespersons, Telecallers, and Accountants, including lead management, follow-ups, receipt verification, and activity monitoring.
- Implemented Start Day/Day End workflows with live location tracking and travel-distance calculation to provide administrators with centralized visibility into salesperson field activities.
- Converted the web-based CRM into an Android application using Capacitor, enabling mobile access to CRM workflows.
- Tech Stack:** React.js, Node.js, Express.js, MongoDB, REST APIs, Tailwind CSS, Capacitor.

Generative AI Intern

Jul 2024 – Aug 2024

Skillible

- Developed AI-powered applications and chatbot solutions using Large Language Models (LLMs), Python, AI APIs, and prompt engineering.

AI & Machine Learning Intern

Sep 2023 – Nov 2023

EduSkills (AWS Academy)

- Developed machine learning models using Python and Scikit-learn, performing data preprocessing, feature engineering, model training, and evaluation on real-world datasets.

Education

Lakshmi Narain College of Technology, Bhopal

2022 – 2026

B.Tech in Computer Science Engineering (AI & DS)

CGPA: 8.16

Mahant Ram Jiwan Das College, Bihar

2019 – 2021

Class XII – 83.4%

Don Bosco Academy, Bihar

2018 – 2019

Class X – 88%
